Subject: Response from Rep. Nicholas A. Langworthy

To: 

# NICHOLAS A. LANGWORTHY

Representing the 23rd District of New York

Dear 

Thank you for contacting me to express your support for the Endangered Species Act (ESA) and conserving our environment. I appreciate the opportunity to respond.

As you may know, the ESA was signed into law by President Nixon in 1973 and it has been identified by the Supreme Court as the most comprehensive environmental conservation legislation signed into law by any country, ever. Growing up in the beautiful Southern Tier following the Nixon environmental reforms—including the ESA— I was able to see the revival of Lake Erie firsthand.

I never forgot what the lake was like while overly nutrient polluted with massive algae growth, lacking animal and plant life, and potentially dangerous swimming conditions, which is why the first bill I introduced as a Member of Congress was the Lakes Before Turbines Act (H.R.426). H.R.426 would avert wind farms from being placed in our Great Lakes, preventing the disruption of settled pollutants on the lakebed, 50 pounds of microplastic pollution, per turbine, per year, and an eyesore that would disrupt this fragile ecosystem.

Preserving and enhancing our beautiful 23rd Congressional District for recreation, sportsmen and future generations will always be one of my top priorities. Rest assured should Congress consider any legislation regarding the ESA, I will keep your thoughts in mind.

Once again, thank you for contacting me about this important issue. Please do not hesitate to reach out with any additional questions, comments, or concerns. My door is always open, and I am honored to serve Western New York and the Southern Tier in Washington.

Sincerely,

**Rep. Nicholas A. Langworthy**  
**Member of Congress**
